## PREFACE: EXPLANATION OF PROCEDURES

This manual is intended to make available the sources, the body of information, and some of the products of the grammatical study which produced the article, "The Classification of Participles: A Statistical Study", G T J, Vol. V No. 2, Fall 1984, pp 163-79. The article necessarily dealt with results, summaries, conclusions of the study, but it could not present the actual lists of examples of each classification. Since others may wish to check and to use these this manual is provided.

To aid in the use of the manual, I offer this explanation of the procedures used. The first step was a GRAMCORD-generated list of all the participial verb forms in the Greek N T. To this was added by personal editing a classification code arrived at by the writer through a study of each participle in its context, marking its functional use. These were sorted and listed manually to compile the lists and statistics.

After the article was published a new tool became available which makes it possible to re-do the sorting and counting by computer more accurately, and at the same time to include much more information. This manual therefore represents a greatly enlarged and corrected version of the study.

First, more grammatical information was incorporated into the data-base and the functional classifications were re-assessed. Then the computerized sorting procedure was used to produce a series of listings of the various classifications. These were further studied for other useful information. The results are presented here in this manual.

Many differences will be noted between the figures given in the article and those given here. This is to be accounted for in two ways. First, there are many corrections of errors, which occurred from the manual counting which was done in the first instance in spite of months of work spent. Second, there are some changes of judgement arising from the re-evaluation of each participle in its grammatical context. The relative changes are not great and in my opinion do not require any major alterations in the conclusions drawn in my original article.

## KEY TO CLASSIFICATION CODES

Field # 1: Grammatical Identification; Tense and Voice

First position :- Tense [P= Present, F= Future, A= Aorist, R= Perfect]  
Second position :- Voice [A= Active, M= Middle, P= passivel]

Field # 2: Grammatical Identification: Gender, Number, Case

First position :- Gender [M= Masculine, F= Feminine, N= Neuter]  
Second position :- Number [S= Singular, P= Plural]  
Third position :- Case [N= Nominative, G= Genitive, D= Dative,  
A= Accusative, V= Vocative]

Field # 3: Occurrence of an Article with the PTCP

Blank :- No article with the PTCP  
A :- PTCP preceded by its own article in agreement  
a :- PTCP preceded by a pronominal article [O DE] -- not an article

Field # 4: Case Determiner [That element in sentence with which the PTCP  
is in agreement]

N :- Noun  
P :- Pronoun  
p :- Pronominal Article [O DE, etc.]  
S :- Other Substantival structure  
V :- Verb ending indicating Person and Number  
? :- Grammatical lack of agreement with word referred to by PTCP

Field # 5: Classification of Participial Function

First position :- General Class. [A= Adjectival, V= Verbal]  
Second position :- Specific Classification

A-APN :- Article + PTCP + Noun  
A-ANAP :- Article + Noun + Article + PTCP  
A-NAP :- Noun + Article + PTCP  
A-AP :- Article + Participle (no noun)  
A-NP :- Noun + PTCP (no article)  
A-PN :- PTCP + Noun (no article)  
A-P :- PTCP (Adjectival by function but no article or noun)  
A-ANP :- Article + Noun + PTCP  
A-Pp :- PTCP (Functioning as a Predicate Adjective)

V-A :- Adverbial or Circumstantial: General  
V-AG :- Adverbial: Genitive Absolute  
V-AR :- Adverbial: Pleonastic  
V-P :- Periphrastic (with auxiliary verb)  
V-M :- "Imperatival" PTCP  
V-S1 :- Supplementary, with verbs "to be" or "to do"  
V-S2 :- Supplementary, with verbs of emotion  
V-S3 :- Supplementary, with verbs of perception or cognition  
V-ID :- PTCP in indirect discourse

Field # 6: Additional Classification Keys

Numbers: Classification of Adverbial uses (V-A, V-AG, V-AR only)

1 :- Time  
2 :- Cause  
3 :- Manner  
4 :- Means or instrument  
5 :- Condition  
6 :- Concession  
7 :- Any Attendant Circumstance  
8 :- Purpose or intention  
9 :- Consisting of, same as

Alphabetic: Classification of Periphrastic tenses formed (V-P only)

First position :- Tense [P= Present, M= Imperfect, F= Future,  
A= Aorist, R= Perfect, L= Pluperfect,  
T= Future perfect]

Second position :- Mood [I or blank = Indicative, S= Subjunctive,  
M= Imperative, N= Infinitive, P= Participle]

Field # 7: Governing or Auxiliary Words (where applicable)

Field # 8: Alternative or Problematic Classifications, or Comments  
[Notations only; not reflected in lists or summaries]
