PREFACE: EXPLANATION OF PROCEDURES

This manual is intended to make available the sources, the body of information, and some of the products of the grammatical study which produced the article, "The Classification of Subjunctives: A Statistical Study", G T J, Vol. VII No. 1, Spring, 1986. The article necessarily dealt with results, summaries, conclusions of the study, but it could not present the actual lists of examples of each classification and its sub-divisions, nor the detailed individual decisions which produced them. Since scholars may want to check these, this manual of background material is presented. Also, the lists may well be used to carry the study further.

To aid in the use of the manual, I offer this explanation of the procedures used. The first step was a GRAMCORD-generated list of all the verbs in the Greek NT which are in the subjunctive mood. To this list was added by personal editing a classification code arrived at by the writer through a study of each verb in its context, marking its functional use. In addition to this other tags were added to make sorting and further study possible (for an explanation of these see "Key to Classification Codes"). Then by use of a computerized sorting procedure a series of listings were produced, bringing together all the examples assigned to each functional classification. These were further studied and compared, subjected to further sorting of relevant material within each class.

The results of all this were (1) the article, and (2) this manual, prepared to preserve the large body of information gathered by the whole study. It is presented with the hope that it will prove helpful to some.

Preface: Explanation of Procedures	i
Table of Contents	ii
Article, "The Classification of Subjunctives: A Statistical Study"	iv

GENERAL INFORMATION

I. Key to Classification Codes	1
II. GRAMCORD Search Commands, with Statistics	2
III. Complete Listing of Subjunctive Verbs with Classification Codes	4
IV. Overall Summary Counts	35

MAIN VERB USAGES: LISTINGS AND SUMMARIES

V. Deliberative Subjunctives	41
VI. Hortatory Subjunctives	45
VII. Emphatic Negation Subjunctives	48
VIII. Aorist Prohibition Subjunctives	51

SUBORDINATE CLAUSE USAGES: LISTINGS AND SUMMARIES

IX. In Conditional Clauses	54
X. In Final Clauses: Purpose	60
XI. In Final Clauses: Result	70
XII. In Final Clauses: Uncertain	71
XIII. Summary: Final Clauses Combined	72
XIV. In Indefinite Relative Clauses	73
XV. In Indefinite Temporal Clauses	76
XVI. In Indefinite Locational Clauses	84
XVII. In Indefinite Comparative Clauses	85

XVIII. In Substantive Clauses: Subject of Verb	86
XIX. In Substantive Clauses: Object, Verbs of Striving	87
XX. In Substantive Clauses: Object, Verbs of Wishing	88
XXI. In Substantive Clauses: Object, Verbs of Permitting	89
XXII. In Substantive Clauses: Object, Verbs of Beseeching	90
XXIII. In Substantive Clauses: Object, Verbs of Commanding	92
XXIV. In Substantive Clauses: Object, Verbs of Fearing	94
XXV. In Substantive Clauses: Epexegetic, with Nouns	95
XXVI. In Substantive Clauses: Epexegetic, with Adjectives	97
XXVII. In Substantive Clauses: Epexegetic, with Pronouns	98
XXVIII. Summary: Substantive Clauses Combined	99

KEY TO CLASSIFICATION CODES

Field # 1: Classification of subjunctive functions and usages

First position: General classification

M = "Main verb usages"; where the subjunctive occurs in the main or independent clause of the sentence.

Note: there are exceptions, where these same uses occur in subordinate clauses, particularly in the MD and MN classes.

S = Subordinate clause usages; where the subjunctive occurs in a subordinate or dependent clause, introduced by a conjunction or a relative word.

Second (and third) position: Specific classification

MD = Deliberative subjunctive: "Shall I ...?"

MH = Hortatory subjunctive: "Let us ..."

MN = Emphatic Future Negation.

MP = Prohibitions in Aorist tense.

SE = In conditional clauses; third class.

SF = In final or telic clauses: Purpose.

SFR = In final clauses denoting Result.

SF? = In final clauses, meaning uncertain.

SI = In indefinite clauses.

SIP = In indefinite comparative clauses

SIL = In indefinite locational clauses (of place).

SIR = In indefinite relative clauses.

SIT = In indefinite temporal clauses (of time).

SN = In substantival or nominal clauses.

Field # 2: Grammatical identification of subjunctive verb.

First position: Person [1,2,3].

Second position: Number [S,P].

Third position: Tense [P=Present, A=Aorist, R=Perfect].

Field # 3: Introductory Words [Interjections, conjunctions, relative words].

Field # 4: Sub-classifications or explanations (where useful).

Field # 5: Governing word; on which subjunctive is grammatically dependent (where useful).

OVER-ALL COUNT

The total number of matches for file B:SUBJ.SRT with the field specifications of:

Field 1 =
Field 2 =
Field 3 =
Field 4 =
Field 5 =

is = 1857

Field # 1: LIST AND COUNT

The possibilities for field number 1 are: # of occurrences are:

>MD	Deliberative	102
>MH	Hortatory	69
>MN	Emphatic Negation	85
>MP	Aorist Prohibition	88
>SE	Conditional	328
>SF	Final - Purpose	557
>SF?	Final - Undecided	13
>SFR	Final - Result	4
>SIL	Indefinite - Locational	10
>SIP	" - Comparative	6
>SIR	" - Relative	137
>SIT	" - Temporal	205
>SN	Nominal, Substantive	253

Field # 2: LIST AND COUNT

The possibilities for field number 2 are: # of occurrences are:

>1PA	111
>1PP	73
>1PR	1
>1SA	185
>1SP	41
>1SR	2
>2PA	203
>2PP	75
>2PR	6
>2SA	96
>2SP	20
>2SR	1
>3PA	205
>3PP	70
>3SA	608
>3SP	180

Summary by Person and Number:

1S	-	208
1P	-	185
2S	-	117
2P	-	284
3S	-	788
3P	-	275

Summary by Tenses:

Present	459
Aorist	1388
Perfect	10

Field # 3: LIST AND COUNT

The possibilities for field number 3 are:

of occurrences are:

The total number of matches for file SUBJS.SRT with the field specifications of:

Field 1 = SE

is = 328

The possibilities for field number 3 are: # of occurrences are:

>AN	$\epsilon\acute{\iota} + \acute{\alpha}\nu$ by contraction	4	EAN or AN	- 324
>EAN	$\epsilon\acute{\iota} + \acute{\alpha}\nu$ by crasis	241	EI	- 4
>EAN MJ	negative protasis	63		
>EANPER		3		
>EI		1		
>EITE		2		
>EKTOS EI MJ		1		
>KAN	$\kappa\acute{\alpha}\iota + \acute{\epsilon}\acute{\alpha}\nu$ by crasis	13		

SUBJ. IN FINAL CLAUSES:
PURPOSE

The possibilities for field number 3 are: # of occurrences are:

>EWS	12
>EWS AN	20
>EWS OTOU	4
>EWS OU	13
>EWS [OU]	1

Key to coded senses of "until" with the subjunctive:

- A:- Until an indefinite, undetermined time: "if and when"
- B:- Until an indefinite, unknown time: "whenever"
- C:- Until a definite time, future to context and unknown at that time, but past to the writer.
- D:- Until a definite future time which never actually was realized.
- E:- Until a definite future time; still future, eschatological
- F:- "While/Until": Instances where the sense would permit "while" but "until" also fits well and should probably be preferred.
- (N):- Negative future: "not until"
- /:- alternate possibilities
