Note to Instructors

This workbook has been designed to accompany the *Mastering New Testament Greek* interactive program, the printable textbook, and the vocabulary builder frequency list. One of my motivations for creating it was to keep the cost of first-year Greek materials to a minimum by leveraging the electronic medium. The program provides an interactive learning environment, the textbook provides hardcopy that coordinates with the interactive program, and this workbook gives specific assignments to reinforce what students are learning. The vocabulary builder frequency list contains all the words down to nine times, ready for vocabulary builder exercises.

There are about seven pages of exercises for each lesson. In general, each workbook lesson begins with a parsing or declension section, followed by two translation sections (one of short portions, the other of longer ones) with usually fifteen exercises in each. The translation portions are taken directly from the Greek New Testament. Each lesson also usually includes a vocabulary review and a word puzzle to reinforce the new vocabulary for that lesson. There is also a “Think Greek” section, with five phrases enabling students to practice writing Greek for themselves. Instructors may wish to assign selected translations for homework and then use the others for paired classroom exercises.

The translation exercises often draw from the writings of John. This makes for a natural transition into the interactive Easy Readers John 1–5 and 1 John that are included on the CD-ROM.

My thanks to Laura Bullock who helped in the preparation of this workbook. An answer key is available for those schools that have adopted this as their main text for first year Greek.

In Christ’s Χάρις,
Ted Hildebrandt
